

Philadelphia Sound Productions Inc.

Alumni Memorial Chapel of St. Cornelius the Centurion

Job Highlights

- ◆ Custom Clock Audio Microphones
- ◆ Extensive acoustic modification
- ◆ Eastern Acoustic Works (EAW) Speakers
- ◆ Crown USM 810 Mixer and CTS Amplifiers
- ◆ Shure Wireless Microphones
- ◆ Telex SoundMate™ Assisted Listening System

The Custom Clock Audio microphone is completely invisible when mounted on the bass pulpit, preserving its traditional look.

Built around a cornerstone presented by President Harry S. Truman, the Alumni Memorial Chapel of St. Cornelius the Centurion has stood at the center of cadet life for decades at Valley Forge Military Academy and College, the nation's oldest and most prestigious military boarding school. Prominently featured in the 1981 film *Taps*, the chapel boasts a 110' spire and chimes that can be heard for nearly five miles. Inside the sound was less clear though.

Beginning with extensive acoustic modification including application of SonaSpray FC acoustical insulation, PSP Inc. designed and installed a state of the art system, to bring the sound into the 21st century while preserving the historic look and feel of the chapel. Using Crown power, an innovative distribution of speakers and a new assisted listening system for the hearing impaired, the PSP Inc. system effectively delivers the message to all listeners.

PSP Inc. offers a full line of audio services including consulting, system rentals, design and installation, recording and mobile audio production. In addition to its many services, PSP Inc. is an authorized dealer for JBL Pro, Crown, Peavey, Shure, and dozens of other leading brands.
